

Book Recommendations

Mrs Washington recommends this book:

Lisa Thompson, the author, combines warmth, humour and poignancy in this story of family, friendship and identity. Maxwell's erasure causes him to evaluate his life and past behaviour and to truly learn lessons about the consequences of his actions and to work out what is important to him. As Maxwell gradually solves the mystery of what has happened to him the strength of his character comes to the fore and he is able to help others and persuade them to help him.
