Mrs McKnight recommends this book:

This is a magical, imaginative classic book.

I loved reading this book as a child and couldn't wait to see which land was going to be at the top of the tree.

This book is full of adventure and excitement and I loved sharing it with my children. There are lots of interesting, unusual, funny characters that make me laugh.

I especially loved the Saucepan Man who lives with Mr Watzisname. He is covered in kettles and saucepans and sometimes is unable to hear his friends as he is partially deaf and he gets aggravated by all the noise from his kettles and pans!!!
