

# Book Recommendations

Rev Nicola recommends this book:

My favourite animal is the pig and I have always wanted a real pig of my own; unfortunately my mum wouldn't let me have one and neither will my husband.

I don't really like spiders but if all spiders were like Charlotte then I wouldn't have been anywhere near as scared of them. Spider's webs are beautiful and intricate and much as I don't like the creature that made them I love to look at their webs, especially when they glisten with frost or raindrops. I think this book is the reason why I love looking at them now; I suppose I secretly hope that one day I will see words within those webs.

I think we all need someone to look after us when life is tough just like Charlotte, the spider looked after Wilbur, the pig.
